

HD Series (Heavy Duty) Chain Pulley Block

- ⚙️ **Light weight and sturdy**
Ease of handling
- ⚙️ **Lifelong lubrication**
Minimal maintenance required
- ⚙️ **Surface hardened gears**
Extended working life
- ⚙️ **Machine guide rollers**
Smooth passage of load chain
- ⚙️ **Unique cover design**
Smooth hand chain operation
- ⚙️ **Self sustaining maintenance free friction brake**
Reduce downtime
- ⚙️ **Grade 80 load chain for strength and wear resistance**
Longer chain life
- ⚙️ **Anti-corrosive powder coated finish**
Better aesthetics

HD Series Chain Pulley Block Parameter

Capacity	MT	1	2	3	5	7.5	10
Number of Falls	-	1	2	1	2	3	4
Hand Chain required to be passed over for lifting load through one metre	Meter (approx)	52	104	104	152	228	288
Running pull on hand chain	kgs.	26	28	43	49	50	61
Weight at 3 metre lift (apprcx)	kgs.	21	30	35	60	88	126
Extra weight per additional meter lift (approx)	kgs.	2.9	4.3	4.3	5.2	7.0	14.4
